Percentage 72.46

PROJECTS

ECommerce Website — Built Using Html, CSS and JavaScript

"Developed and maintained an e-commerce website that provides a seamless shopping experience for customers across multiple product categories, including [Clothes, e.g., T-shirts, glasses and bags]. Focused on creating an intuitive user interface, ensuring mobile responsiveness, and optimizing website performance to enhance user engagement. Leveraged tools like [Html, CSS, JavaScript and Bootstrap] to implement dynamic features, improve loading times, and streamline the checkout process, contributing to an increase in customer retention and sales conversions."

Portfolio — Built Using HTML, CSS, JavaScript, Reactjs

Developed a responsive, modern portfolio website to showcase my skills, projects. Built with HTML, CSS, JavaScript, Tailwind, Reactjs the site features a user-friendly interface and is optimized for both desktop and mobile devices. Integrated animations and transitions to enhance the user experience and added interactive elements, such as a contact form and project gallery. Deployed the site using GitHub Pages and performance optimization. This project showcases my technical skills and design, providing a professional online presence for potential employers.
